

WHITNEY HOUSTON

Whitney Houston was born in August, 9 of 1963, in New Jersey, USA. She was a famous singer, and began her career singing at the church. Her mother, Cissy Houston, is a singer too, and teaching her how to sing.

Whitney graduated at Mount St. Dominic Academy. She started singing alone, like a professional singer, just in 1983, with the manager Clive Davis. Whitney also worked like an actress and like a model. Her first album is from 1985, called Whitney Houston. This album had many hits on the Billboard and got a Grammy.

In 1992 she made a movie, *The Bodyguard*, with Kevin Costner. The film received good and bad reviews, because of an interracial relationship.

Also in 1992 she got married with Bobby Brown, and this relationship was too bad for her, because her husband was very violent and had many girlfriends. They had a child, Kristina, in 1993.

Whitney used drugs and alcohol, and tried many times to be well, but she used too much cocaine and crack.

In February 2012 she died from drowning, and the police said that she used cocaine before her death.

For me, she was the best singer in the whole world.
